To Whom It May Concern,

Re: Whytespace Ltd.

Recently Travis Whyte of Whytespace Ltd. designed our website: [www.janustravel.ca](http://www.janustravel.ca). I am writing today to let you know they did a terrific job. I'm still impressed every time I look at our website and other people who see it are equally impressed. Ron & I encourage you to build your website with Whytespace. Look at our website and the others featured at [Whytespace.ca](http://Whytespace.ca). Then talk to Travis.

I am computer literate though I am not a computer expert. I knew we needed help. When I first met with Travis to start this project, I explained what we wanted and the purpose of the website. Travis listened well and met our needs. His graphic designer is great too. The design is pleasing to the eye and really easy to use. It encourages browsing. It highlights our company colours. We love the banners with the photos that change and the huge photo gallery. When we asked our head office staff to review the website, their feedback was terrific and there were many specific compliments. It was important to Ron & I that our website grows and changes. The software allows me to manage a lot of the growth myself. I can change the text, blog, add photos, add new feature destinations, create links and grow the website.

I look forward to developing our internet site further with Whytespace Ltd.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'C. Hurtig', written in a cursive style.
